Hearing Session 3:

Chapters 3 & 4 The Natural, Cultural and Historic Environment

9.30am Thursday 19 July 2018

Matters & Issues Agenda

- 1. Introduction**
- 2. Procedural Matters**

The Natural Environment

3. Strategic Policy D 'Natural Environment':

- a) Although no changes are being proposed to this policy, does it continue to fulfil its purpose in protecting natural resources, biodiversity, geodiversity and the special qualities of the National Park?

4. Dark Skies Reserve and Dyfi Biosphere Reserve (Development Policy 2):

- a. The additional text within the Plan clearly recognises the importance of these designations. However, should the Plan acknowledge that development within certain parts of the National Park will inevitably have an impact on these designations?
- b. Will the Dark Skies Reserve designation result in a 'blanket approach' to the assessment of developments? And should there be a differentiation between different areas of the National Park?
- c. Do the policies provide sufficient clarity on the way in which development proposals, which are likely to impact on these designations, will be considered and where mitigation and compensation measures will be required? Should this be included within policy?

- d. Does the Plan provide sufficient guidance to developers/applicants on what information they need to provide in support of any planning application? Should this be clarified within Development Policy 2?

5. Development Policy 3 'Energy' :

- a. The Plan recognises that the landscape of the National Park is sensitive to wind turbine developments. Does the Plan comply with National Policy regarding the thresholds for different technologies, and should the Plan provide additional guidance to developers on the nature and scale of proposed renewable energy schemes within the Park?
- b. How will proposals on the boundary of the National Park within adjoining LPAs be assessed?

6. Minerals:

- a. Do the changes proposed to Strategic Policies E1, E2 and E3 comply with national policy and provide a clear basis for dealing with developments on safeguarded aggregate or mineral deposits, as well as assessing new proposals for mineral extraction within the National Park?
- b. Does the Plan provide sufficient guidance to developers/applicants on what information they need to provide in support of any planning application? Should this be clarified within the Plan?

7. Waste:

- a. Does Development Policy 4 provide a clear framework for assessing applications for new waste management facilities?
- b. Does the Plan provide sufficient guidance to developers / applicants on what information they need to provide in support of any planning application? Should this be clarified within Development Policy 4?

Cultural and Historic Environment

8. Strategic Policy Ff 'Historic Environment':

- a) Is the reference to the Candidate World Heritage Sites within the policy and on the constraints map premature given that it is only included on a tentative list submitted to UNESCO?
- b) How will planning applications within these areas be assessed during this interim period?

9. Development Policy 9 'Conversion and Change of Use of Rural Buildings'

- a) What is meant by the term 'rural diversification scheme'? Should this be 'agricultural diversification' in line with Development Policy 20 for consistency? If so, should both policies cross refer to each other?
- b) Should the policy provide clarification and further justification on the requirement for the payment of a commuted sum for open market dwellings? Should the policy cross refer to Strategic Policy Ch?

10. Does the Plan provide a sound basis for implementation and monitoring of the natural, cultural and historic environment?

11. In light of the Well-being of Future Generations (Wales) Act 2015, the Welsh Government is proposing to revise Planning Policy Wales (PPW). What are the implications, if any, of the proposed revised PPW on the Natural and Historic Environment as set out within Revised Eryri LDP?

12. Any other matters.

13. Action Points and Matters Arising Changes from all hearing sessions.
